Subj: TRANSFER OF FEDERAL ON-SCENE COORDINATOR RESPONSIBILITY

Ref: (a) New York/New Jersey Area Contingency Plan, Annex A

1. In accordance with ref (a), Sector New York has officially transferred On-Scene Coordinator authority to United States Environmental Protection Agency (U.S. EPA) Region II for incident Consolidated Edison – Farragut Transformer #3, CPN: C17049 for the following reason(s):
 - (a) The hazardous substance response has transitioned from the emergency phase to a non-time critical removal action.
 - (b) The U.S. EPA is better suited to coordinate the next phase in response due to the projected long-term site remediation and facility construction so the Responsible Party can maintain and fully implement a Spill Prevention, Control, and Countermeasure ("SPCC") Plan for the facility, in accordance with Oil Pollution Prevention regulations found at 40 C.F.R. Part 112.
 - (c) The discharge/release has decreased within the coastal zone with no sheen observed during the past 10 days that included significant wet weather and only unrecoverable sheen observed within enclosed boom areas.
 - (d) Incident specific situations with this response dictate that a formal transfer of On-Scene Coordinator responsibility is appropriate.
2. U.S. EPA's assumption of On-Scene Coordinator responsibility for this incident is effective May 24, 2017 at 0800 (local).
3. Any further questions or issues concerning this response shall be directed to On Scene Coordinator Chris Jimenez, U.S. EPA at (908) 420-4484.
